

**Stantec**

Stantec's Vancouver office is currently looking for a Senior Transit Planner or Engineer.

Stantec provides professional consulting services in land use and transportation planning, engineering, landscape and building architecture, interior design, surveying, environmental sciences, project management. Our services are offered through approximately 11,000 employees operating out of more than 170 locations in North America.

The successful candidate should be passionate about promoting the development of sustainable cities and transit and alternative mode systems, and should be highly motivated, eager to learn, and energetic.

The successful candidate will possess the following qualifications:

- Successful completion of undergraduate University Degree in planning, engineering, environmental studies or equivalent. A Master's Degree in a planning related field would be a definite asset.
- Minimum of 8-10 years of transit planning experience, preferably with some consulting experience.

Types of projects would include: Transit Service Policies and Plans; Cycling and pedestrian infrastructure plans integrated with transit modes; Community and Corridor Multi-Modal Transportation Master Plans and Transportation Demand Management Plans; Transit Governance; and Sustainable Community and Energy Plans

This position has a competitive compensation package and is located in downtown Vancouver, British Columbia, in a pedestrian and cyclist-friendly and transit-accessible location.
